Message from Chairman, Advisory Council

The Development Organization of the Rural Poor (DORP) has entered into its thirty sixth year of operation with a heritage of remarkable progress & achievements. With sharpened clarity of vision, improved knowledge and talented implementation, the organization is poised to leap ahead to contribute in achieving the set Goals of DORP. Over the last decades, it has established itself as an organization committed to welfare and empowerment of women and marginalized people. The organization has worked with the governmental bodies, media, private sector, international and national NGOs and multilateral organizations to create a platform and an understanding for marginalized and voiceless section of the society.

The reducing of poverty is our central theme for action mainly with Government of Bangladesh. Taking impetus from its previous work, DORP this year articulated and highlighted issues of human rights to water and sanitation, resettlement issues and likewise linked the international level as well as bottom-line poor mothers for securing SDG number 1.

This annual report highlights our work of the past and unveils the future road mapping. It will be seen that this year of 2022 continued to be a challenging year even under the looming threat of the COVID-19 pandemic and Russia-Ukraine war and the consequential uncertain economic prospect. It had a number of major accomplishments in each of the issues of its core agenda, significant expansion of cooperation with partner in order to expand the radius and impact of our development work, research and analysis. To all of our partners at home & abroad, who played the important roles, we thank all for joining us on this journey of ensuring opportunities of education, health, nutrition, resettlement and income for livelihood restoration etc.

I register my deepest gratitude to the concerned officials of Government, Financial Institutions & International partners who have rendered all valuable support. I would also like to express my heart-felt thanks to our General Body Members, Honorable Advisors, and Executive Committee Members of DORP visionary organization. Moreover, I convey my thanks to our Senior Management team and all staff who made all-out efforts of materializing every plan & decision bestowed on them.

With thanks & Regards.

Message from Chairman

I feel honored as I am working as the Chairman of DORP since last Nine years. DORP has been working in the field of development with its wide heard message 'Connecting the Disconnects'. The organization is implementing different projects/ programs in the development sector. Unlike many other similar organisations, DORP has its unique commitment for the rural poor specially the underprivileged mothers.

DORP innovated maternity allowance: a safety net program for the poor expecting mothers is now being implemented by Ministry of Women & Children Affairs of the Government of Bangladesh. The five basic need pillars SAPNA package has given tremendous outcomes in respect of the improvement of the living standards of vulnerable mothers. The program implemented by Government has achieved enormous success in the fields of income generation, women development, self-reliance and family health. Our farsighted Bangabandhu Kannyasheikh Hasina extended Maternity Allowance from all sides like duration to 4 years, amount monthly 800 taka and total mothers covered 12 lacs for ending poverty targeting SDG No 1.

I am always indebted to the respective officers of the Ministries of Railway, Energy, Local Government, Women & Children Affairs, Health, Education and others for their heartiest cooperation.

I am thankful to the members of DORP's Executive committee who are excellently dedicated. We are always grateful to our advisors; who are our great strength.

The Founder and CEO of DORP Mr. AHM Nouman with his vast experience of about 52 years in the development sector, has dynamic leadership and

innovative ideas which lead the organization to its present position.

I thank all level of staff of DORP for their exemplary services, sincerity and dedication for our organization.

I am very much hopeful with the new Executive Committee of DORP. I understand that they all are efficient and experienced. Under the dynamic leadership of Mr. Md. Nurul Amin the Chairman will achieve amazing success in bringing the organization to a great height.

Creation from Devastation

With the Government tireless effort to overcome the COVID-19 pandemic up and down situation, DORP is also trying hard to win the situation together sustaining its continued effort. Mentionable, we have not received any concession /incentive/ stimulant fund from any corner. BUT that educated us to store strength and to stand on our own feet. We are a holistic approach believing organization with National and International networking, Bottom up and Top down approach practitioner.

Microfinance is for the sustainability of the organization. Alternatively different projects/ programs are for organization's life run. DORP originated to work mostly with Government organizations and some with International supporting organizations. Our long experiences gained is still widening more confidence, build trust in-between and among the stakeholders.

With involvement of energetic, smart and young practicing members of DORP linking with policy and planning diverse, are the key force to way forward. Very successful area to come to a status of Microfinance at a level, makes standard as per Microfinance grammar. This may happened as I believe 'Creation from Devastation'. Since 1970's 12th November devastating cyclone from where my engagement in social arena I named 'Product of Cyclone'. In 1971 during our war of independence where we the co-operators started a 'production fighting' for boosting food security assuming freedom struggle may be longer and there I termed 'Production Fighter'. Now fighting for ending poverty. COVID-19 which energized the basic way to Microfinance stability to come to this acceptable situation. Now DORP Microfinance needs investment to cover the cultivated renewed avenue. PKSf is always highly honored and valued by DORP. Seeing the clean position they have open the window naming GREEN-DORP. They already join this new hope to provide more access from window to door by funding. We are happy and strongly acknowledge the sincere relationship. Some Banks like Uttara, Meghnaare and Southeast already financing and others are coming. Ending Poverty fulfilling SDG 1 we have 2 matters to work that is centering Bottom lining poor MOTHER- an innovative evolved SAPNA model and with a bias 'WATER FOR LIFE', an awardee of UN – WATER BEST PRACTICES AWARD aligned with our 4 thematic strategic plan.

We are working so far with the Projects/programs in the reporting year 2022 like-

1. Dhaka Environmentally Sustainable Water Supply Project funded by ADB- Dhaka WASA.
2. Padma Bridge Rail Link Project, Phase-1 & 2, CSC- Bangladesh Army- Bangladesh Railway(BR).

Microfinance Program Sirajgonj, Tangail, Kishoregonj, Chattogram, Patuakhali and Barguna districts.

We honor all of them for their all out support to accomplish and exercise our 36 years professional experiences of the targeted works given to us.

Our Last Executive Committee upto 2022 headed by Mr. Md. Azher Ali Talukder, Chairman an Ex-Bureaucrat has given a tremendous services for the enhancement of the organization. How a bureaucrat turned to a social animator, Mr. Talukder is an example. We have no language to thank him but Salam. Our gratitude specifically to him and his committee members, we remain. Respecting the routine change of Executive Committee on legal framework, a reputed ex-banker Mr. Nurul Amin now on run as chairman. His team is elected with honor by the General Body and welcomed by Advisory Council and all of us. Hoping heartily best of further future specially for Microfinance development.

A Snapshot about the Organisation

Development Organisation of the Rural Poor-DORP a national Non-Governmental Organisation (NGO) has been working in the development field for more than 3 decades in Bangladesh. The experiences of the organisation are not confined to specific field, rather diverse in action. The pioneer and founder of the organisation is the first generation development activist in the country, along-with his companions who have also long experience in different areas of development.

In 1970, just before the liberation war of Bangladesh, a devastating cyclone caused havoc and about 1 million people died in the coastal area. During that time, some youths of Ramgati Thana under Laksmipur district (one of the severely cyclone affected areas of the Coastal Belt) were organised to help the victims through relief, rehabilitation and production of sayabean program. After completion of the works, it was realised that relief could only solve the immediate problems of the affected people, but much more is needed for self reliance. Based on this realization, they started a cooperative movement ensuring the participation of the affected people under the name of Ramgati thana Central Cooperative Association (RTCCA). After starting the work, a new concept about rehabilitation was drawn in the minds of the organisers in the frame of creation and development of Cluster Village. The World Bank Christmas Party Fund supported the program under the name of Bishwa Gram and that was the ever first Cluster Village in the country set up at Ramgati, during 1970-73. Presently Laksmipur is branded as

Soya district by the government.

Thus, the present Chief Executive and Founder of DORP, AHM Nouman was directly involved in relief, rehabilitation, development & human rights program as a Pioneer Architect. Later on, realizing the importance and indispensability of self-help and self-reliance in promoting the sustainable development, he along with a few other pioneers, established self-reliance movement promoting change of social and economic situation and felt to transform development sector through bottom-up approach, while people from rural areas of the country were the focal group of development. Eventually, in 1987, AHM Nouman with other like-minded professional rural development actors established DORP for achieving sustainable development through self-reliance.

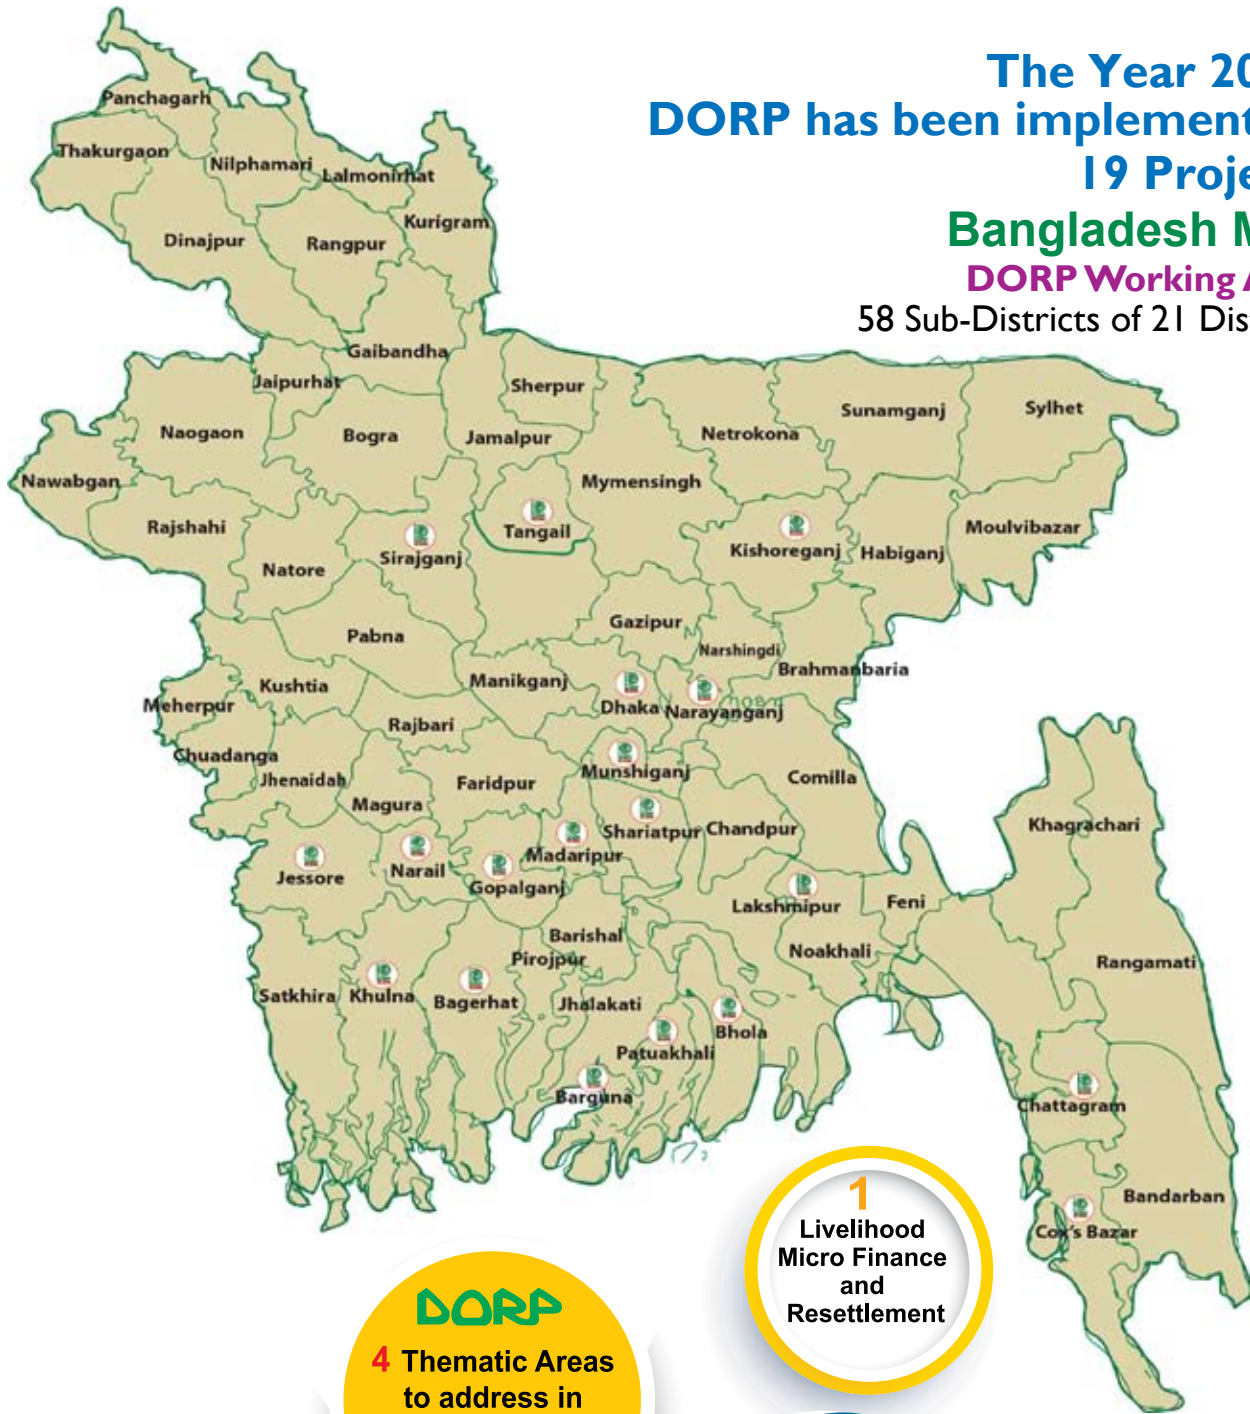

Thus, DORP became an organisation of a set of social workers with adequate educational and technical expertise including grass root people, with local level experiences in the areas of integrated development. Its participatory approach was method of practice from the very beginning of the organisation. In DORP's evolution process, it has experimented out various approaches and undertaken some action-oriented research to identify the direction of its programs that makes Maternity Allowance and SAPNA package, with active participation of people and run by the Government of Bangladesh specially for the poor women, marginalized and riverine belt inhabitants as program partners.

Maternity Allowance Centered 'SAPNA Package' for Poverty Alleviation

At a Glance

Social Assistance Programme for Non-Asseters (SAPNA) is an integrated social safety net model-based initiative. SAPNA has been designed for the maternity allowance recipient mothers having five distinguished pillars: 1) Health Nutrition and Birth Control, 2) Education and Culture, 3) Housing, Water and Sanitation, 4) Livelihood Employment, 5) Savings, Income and Credit. It is a plan for a generation of 20 years aiming to eliminate poverty from the country.

In 2005, DORP launched the maternity allowance programme from its own limited funds, which was governmentalized in 2007-2008 to start broadly. Over the years, good practices and lessons learned from the maternity allowance programme, which transformed into the dreamed SAPNA Package programme for mothers in 2009. During December 2010 to September 2012, the SAPNA Package programme was implemented by the DORP with the partnership of AECID (Spanish Agency of International Cooperation Development).

Finance by the Government

July 2014 was marked as achieving a milestone for SAPNA package programme as the Government of the People's Republic of Bangladesh (GoB) recognized SAPNA package, and GoB allocated money in the budget. Ministry of Women and Child Affairs (MoWCA) was the leading Ministry in implementing the SAPNA Package where the DORP was playing a role of a facilitator. The overall objective of the SAPNA was to alleviate poverty from the country by providing with the services to the poor mothers-centered SAPNA package. Implementation of the SAPNA as a part of the social safety-net interventions was considered as social investment by the

Government. GoB invested BDT 5.50 core for the years 2014-2017. The project served 700 mothers covering 60 Unions of 10 Upazilas under 10 districts of 7 administrative divisions of Bangladesh.

The project period ended in June 2017. On the ground, directorate of women affairs implemented the project and the DORP provided all out supports to the directorate. The Upazila Coordinators and the Facilitators used to collect information of the Maternity Allowance recipient mothers and help respective officials of the Directorate of Women Affairs aiming to enable them to select SAPNA mothers in the light of set 7 (seven) criteria. The following activities were carried out:

- Providing orientation;
- Organizing monthly coordination meeting;
- Organizing and facilitating training for the mothers;
- Facilitating education session on health and social issues for the couples;
- Ensuring proper handing over and utilization of the SAPNA package resources; and
- Monitoring the progress of the activities, and following-up the mothers.

Capacity building:

Training was facilitated to enhance the capacity of the programme participants (mothers). The training focused on overall development of the family, especially enhancement of house-hold income by cultivating vegetable and planting fruit trees around the house, fish culture, rearing poultry and livestock or becoming a small entrepreneur.

Including awareness training in order to build habit of savings; and to use of cards for health, birth control and education.

Progress

In the years 2014-17; a number of 700 mothers were given houses along with a safe latrine and Annual Report 2021 17 funds/resources for employment and livelihood restoration. Besides, cards for health, nutrition, family planning, education and cultural functions were handed over among the SAPNA families successfully.

Mothers' parliament

One of the most innovative and effective platforms for the mothers presented by the DORP is "Mothers' Parliament". Members of the "Mothers' Parliament" are the maternity allowance and SAPNA recipient mothers. Mothers formed a Parliament where Speaker, Deputy-Speaker are selected through a democratic process. Mothers' Parliament has a direct access to the public representatives and governmental officials to raise their voices in order to avail their entitled rights, services and resources allocated by the Government.

DORP's role

Staff members of the DORP working in the SAPNA project areas provided with services among SAPNA mothers voluntarily. By paying home visits, the DORP people provided services of counselling for mothers' health and family development aiming to fulfillment of SDG's relevant targets. Events like SAPNA "SERADOSH", visits by public representative, high officials of the GoB and non-govt. social leaders were organized, which made effects to spread out impact of the SAPNA programme. By the next 20 years, we hope to get a new generation which will be free from poverty and all evils through SAPNA package programme. In view of this, the DORP still thrive to scale-up the project with the support of the government and others national and/or international partners. In this connection, the DORP is in the process of doing lobbying and liaison with the respective ministries, i.e. MoCWA, Ministry of Finance, Ministry of Social Welfare;

and advocating with other NGOs, connecting with the TV channels and print media. Salma, one of the SAPNA mothers from Mujibnagar, Meherpur, has got a dignified life and desired to meet our Honorable Prime Minister Sheikh Hasina along with others SAPNA mothers in order to appeal to scale-up SAPNA programme country-wide (Ref. The Daily Ittefaq, 8 May 2022).

Independent Auditor's Report To the Member of General Body of Development Organisation of the Rural Poor (DORP) Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the consolidated financial statements of **Development Organisation of the Rural Poor (DORP)** (the NGO), which comprise the consolidated statement of financial position as at 30 June, 2022 and consolidated statements of comprehensive income, consolidated statement of changes in fund, consolidated statement of cash flows and notes to the financial statements including a summary of significant accounting policies.

In our opinion except for the effects of the matters described in the basis for qualified opinion section of our report, In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of **Development Organisation of the Rural Poor (DORP)** as at 30 June 2022 and its consolidated financial performance and its consolidated cash flows in accordance with International Financial Reporting Standards (IFRSs) and other applicable laws and regulations.

Basis for Qualified Opinion

- The management of Micro Finance Program, DORP made adjustment both in asset and liability side of its financial statements during the year. Previously some transactions have been booked both in assets side and at the same time to the liability side of its financial statements. Moreover, some transactions are also booked in the project account, which are not traceable at all. After proper scrutiny, the management of the Micro Finance Program of DORP adjusted Tk. 192,453 against 02-line items of Assets side and Tk. 110,122 against 02-line items of Liabilities side of the Statement of Financial Position. Due to inefficiency of the MF management, 04-line items have been adjusted with Cumulative Surplus during the year and the related notes no. 10.03, 11.00, 15.00 & 17.00 of notes to the financial statements. Moreover Tk. 3,953,130 has been adjusted with opening of loan written off balance in the portfolio report under loan loss provision status.
- During the year, the project management charged depreciation less than the rates determined and not following IAS-16. Therefore, the surplus of the project and corresponding Fixed Assets have been overstated.
- Tk. 302,527 as Loan Loss Provision (LLP) has been made during the year. But according to MRA policy total there is a shortfall of provision amounting to Tk. 14,120,133. As a consequence, surplus has been increased significantly and at the same time members savings is under high risk.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the consolidated Financial Statements section of our report. We are independent of the NGO in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in jurisdictions, and we have fulfilled our other ethical responsibilities in accordance these requirements and with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Responsibilities of Management and Those Charged with Governance for the consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the NGO's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the NGO or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the NGO's financial reporting process.

Auditor's Responsibilities for the Audit of the consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management but not for the purpose expressing an opinion on the effectiveness of the NGO's internal control.
- Evaluate the overall presentation, structure and content of the NGO's consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Ensure Access to Water and Sanitation

MOHAMMAD ZOHAIIR HOSSAIN

THE year 2022 is the 75th anniversary of the UN Declaration of Human Rights. It is not known to us whether per capita expenditure on water and sanitation is included in daily consumption expenditure or not. We call it "Water to Live" but its budget is allocated separately at household level for water.

According to the Joint Monitoring Programme (JMP) conducted by the World Health Organization (WHO) and the United Nations Children's Fund (UNICEF) 2021, 90% of people in Bangladesh are currently covered by safe water availability facilities and 80% of people are covered by safe sanitation facilities. Considering resource availability and planning, it is very challenging to give all populations in the coming eight years a Clean Water and Sanitation for All by 2030 in the commitment of SDG 6.

Adequate budget allocation and good governance are essential in order to have safe water and sanitation systems for all by 2030. In this year's budget of 2022-23, the annual development programme allocation for the WASH (Water Sanitation and Hygiene) has been increased by 0.41% compared to the previous year. However, the total WASH budget is only Tk 11,400 crore out of Tk 1,00,000 crore of ADP allocation.

According to the Household Income and Expenditure Survey 2019, poverty rate in 2019 was 40%. It is estimated that poverty rate stood at 30.5% in 2020. However, the study said after the pandemic situation of 2020, the poverty rate is currently more than 20.5%. According to government data, 30% of 164 crore i.e. about 13 crore people are below the poverty line. We understand that safe water and sanitation are not priority issues for people of these communities. But they are responsible to ensure water and sanitation for these communities.

Observing the UN declaration and subsequent recognition of human rights, less will remain on paper. There has been some positive changes in the allocation between WASH/Water Supply Authorities such as Thakia WASH/Water Supply Authority and that of Chatterganj and Bapkhola has increased, but Khulna

উত্তরে সালমা বলেন, স্বামীসহ করেছি। স্বপ্ন প্যাকেজের আওতায় যে গুরু পেয়েছি তা থেকে আয় করে এখন ৩ রুমের পাকা ঘর করেছি। তিনি বুঝালেন, আমাদের মতো গরীব মাদেরকে সরকার থেকে কিছু পুঁজি বিনিয়োগ করলে পরবর্তীতে নিজের উদ্যোগ ও চেষ্টা করে স্বাবলম্বী হতে পারি। সরকারি ভাবে এ বছরও ১২ লক্ষ মাকে মাতৃত্বকালীন ভাতা দেয়া হচ্ছে এবং তা ৮০০ টাকা হারে ৪ বছর মেয়াদে। পোশাক শ্রমিকরা সর্বনিম্ন যে বেতন পায় সেরকম প্রতি মাকে মাসিক ৭০০০ টাকা করে ভাতা দেয়া দরকার। সালমা বেগম বলেন, আমরা তখন ৩০০ টাকা হারে মাতৃত্বকালীন ভাতা পেয়েছি। এখন যারা পায় তারা মাসে ৮০০ টাকা হারে পেয়ে থাকে। এখন ভাতাপ্রাপ্তি শর্তবহির্ভূত মা'রাও ভাতা পেয়ে থাকেন যারা পাওয়ার কথা না।

সভাপতি বলেন, স্বপ্ন প্যাকেজ নিয়ে আমরা একটি প্রকল্প জমা দিয়েছি। আমরা চেষ্টায় আছি প্রকল্পটি অনুমোদন করানোর। কিন্তু বর্তমানে দেশে বৈশ্বিক মন্দা থাকায় বলা যাচ্ছে না প্রকল্পটি অনুমোদন হবে কিনা। তবে আমরা আমাদের সাধ্যমত চেষ্টা করব।

তিনি বলেন, আমি শুনলাম ড্রপ থেকে স্বপ্ন মা প্যাকেজ প্রকল্প প্রস্তাবনা মহিলা বিষয়ক অধিদপ্তরে জমা দেয়া হয়েছে। এ জন্য চেষ্টা চালাতে হবে। তিনি আরো বলেন, সমাজসেবা অধিদপ্তর থেকেও বিভিন্ন প্রতিষ্ঠানের মাধ্যমে প্রশিক্ষণ করানো হয়। যেখানে সরকার ৮০ শতাংশ ও সংস্থা ২০ শতাংশ বাজেট দিয়ে প্রশিক্ষণ সম্পন্ন করে। যাদের প্রশিক্ষণ দেয়া হয় তাদের বয়স ১৮ বছরের উর্ধে। তাদের এমন সব বিষয়ে প্রশিক্ষণ দেয়া হয় যেন তারা বিদেশে গিয়েও কাজ করতে পারে। সমাজসেবা অধিদপ্তরে এই প্রশিক্ষণ প্যাকেজ বাস্তবায়নের জন্য ড্রপ'র প্রস্তাবনা প্রদান করার সুযোগ রয়েছে।

(ঞ) ডঃ মোঃ শাহাবুদ্দিন খান, সদস্য সাধারণ পরিষদ বলেন, প্রতিবছর এজিএম অনুষ্ঠিত হয় কিন্তু এর কোন নির্দিষ্ট তারিখ নেই। ড্রপ এর প্রতিষ্ঠা দিবস আছে, সেদিন এজিএম করা যায় কিনা তা বিবেচনার প্রস্তাব করেন। উপ নির্বাহী পরিচালক যে উপস্থাপনা দিয়েছেন তা আরো উন্নত করা এবং পিকেএসএফ এর সাথে যোগাযোগ বাড়ানোর পরামর্শ দেন। তিনি ড্রপ কার্যালয়ে একটি দাতব্য চিকিৎসা কেন্দ্র চালুর জন্য প্রস্তাব করেন।
